Respected Sir,

As per above mentioned subject we are planning to organize workshop on **Software Testing** for TE Computer students event dated on 26/09/2024 to 28/09/2024 for TE Computer students.

The Objective of this event is

- To get familiar with technical problems faced by Software testers in industries.

- To get idea of different scenario in industries.

The Outcome of this events will be

- They will upgrade their knowledge and confidence.

- They will get idea about how to deliver projects to the clients.

So We kindly request you to grant us the permission for the same.

Thanking You.

Subject: Report of Workshopon "**Software Testing**" conducted by Mrs.Lavanya M. (Project Manager at Oracle,India) for TE Computer Engineering Students.

Respected Sir,

With reference to above mentioned subject the "**Software Testing**" for TE Computer Engineering Students organized on **26/09/2024 to 28/09/2024**. We got a huge response from student participants and the event was concluded with grand success.

This workshop has provided a platform to all students to get new concepts related to Software Testing. Students have also got interacted with the speaker for their queries and gave huge response for this lecture.

The lecture was successfully conducted and completed following objectives

1. What is Software Testing?
2. What is life cycle of software testing?
3. What is Function,Non functional ,Usability testing ,Black box and white box testing?

    4.Agile Model,Postman Tool.

To make this Workshop successful, participants from TE Computer Engineeringhave been actively participated and communicated with the speaker for their queries. As the coordinator of this event I would like to thank our Management, Principal, Head of the Department and Our Team Members for their support and continuous encouragement to organize this event.

Respected Sir,

As per above mentioned subject we are planning to organize Mini Project Exhibition event dated on 26/10/2024 for SE Computer Engineering students.

The objective of this event is

- To provide platform to students to showcase their innovative ideas in Gaming
- To develop presentation skill
- To motivate students for usage of ICT tools

The Outcome of this event will be

- They will upgrade their technical skills
- They will get idea about how to develop gaming project with or without coding
- It will be helpful in their academic mini project work examination

So we kindly request you to grant us the permission for the same.

Subject: Report of the ANIMANIYA: Mini Project Exhibition
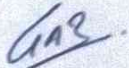

Respected Sir,

    With reference to above mentioned subject the Mini Project Exhibition was organized for SE Computer Engineering students dated on 26/10/2024. We got positive response from student participants and the event was concluded with grand success.

    This event has provided a platform to all students to get new concepts related to the gaming technologies in current era. Students have also got interacted with Participants for their queries and gave response.

The event was successfully conducted and completed with following outcomes

- Are able to upgrade their technical skills
- They got idea about how to develop gaming project with or without coding
- It helped in their academic mini project work examination

    To make this event successful, Participants from SE Computer Engineering have been actively participated. As the coordinator of this event I would like to thank our Department, HoD, Principal, Management and Our Committee Members for their support and continuous encouragement to organize this event.

Subject: Report of Expert Lecture on IPR & Technical Paper Publication & Copyright dated on

25/02/2025

Respected Sir,
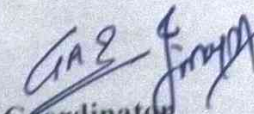

With reference to above mentioned subject Expert Lecture on IPR & Technical Paper Publication & Copyright dated 25/02/2025 was organized for SE Computer Engineering students. There was positive response from student participants and the event was concluded with success.

This lecture has provided a platform to all students to get new concepts related to the technical research paper writing, Patent, Copyright. Students have also got interacted for their queries and gave response for this lecture.

The lecture was successfully conducted and completed following objectives

1. To create awareness about R & D culture
2. Overview of different aspects of Technical Paper writing & Copyright

To make this lecture successful, Participants from SE computer (80 +students) have been actively participated. As the coordinator of this event we would like to thank our Department, HoD, Principal, Management and Our Team Members for their support and continuous encouragement to organize this event.

Subject: Report of three day Workshop on **"Fintech Analytics using Data Science"** for Computer department on 26/03/2025 to 28/03/2025

Respected Sir,

With reference to above mentioned subject the Workshop on **"Fintech Analytics using Data Science"** was organized for Computer Engineering students on 26/03/2025 to 28/03/2025. We got a huge response from participants and the event was concluded with grand success.

This workshop has covered various aspects related python programming to all staff. Participants have also got interacted with the speaker for their queries and gave huge response for this workshop.

The Workshop was successfully conducted and completed following objectives:

Workshop Objectives:

1. To introduce students to fundamental concepts in Fintech Analytics and its role in the financial sector.

2. To provide hands-on experience with data-driven decision-making, risk analysis, and predictive modeling.

Summary of Workshop:

The workshop was highly interactive and successfully met its objectives. The students actively participated and demonstrated a keen interest in learning about Fintech and Data Science. We extend our gratitude to the faculty, guest speakers, and organizers for their support in making this event a success.

Following topics are covered in the workshop:

- Overview of Fintech and its applications in banking, insurance, and investments.
- Introduction to financial datasets, including stock prices, transactions, and customer profiles.

- Basics of Python, SQL, and data preprocessing techniques.
- Introduction to machine learning algorithms for financial applications.
- Credit risk assessment, fraud detection, and customer segmentation case studies.
- Hands-on implementation of predictive analytics using Python libraries
- Q&A session and feedback collection from participants.

Outcome of the Workshop:

- Students gained exposure to real-world financial datasets and analytical techniques.
- Hands-on experience in applying data science tools for Fintech applications.
- Enhanced understanding of AI and ML applications in financial decision-making.
- Positive feedback from students and faculty, with suggestions for future advanced workshops.

To make this Workshop successful, Participants from SE/TEComputer have been actively participated and communicated with the speaker for their queries. As the coordinator of this event I would like to thank our Management, Principal and Our Team Members for their support and continuous encouragement to organize this event.
